**THIS PAPER CONSISTS OF OBJECTIVE & SUBJECTIVE QUESTIONS**

**\*Shade your answers onto the O-Card provided (objective questions) & write your answers (subjective questions) in the ANSWER SHEET.**

**OBJECTIVE – 60%**

**SECTION A: READING COMPREHENSION (12%)**

Read the following passage and answer the questions that follow.

Karim has never been to his village for many years. Then one day, he decided to spend the holidays with his uncle, Pak Mat, in Kampung Sentosa. Pak Mat owns a herd of twenty cows and six calves.

Most of the time, he allows his cows and calves to graze freely in the field. When they return in the evening, they are given animal feed containing a mixture of maize and soya beans. Such feed helps the cows to produce more milk. At the same time, it helps the calves to grow healthier and faster.

When the cows go to the field to graze, Karim follows them. He studies their appearance and behaviour. He knows the cows are of different sizes. They are also of different colours. Some are black, some are brown and others are white with patches of black. Each cow has a pair of short, pointed horns on its head. It has four black hooves. They are hard and protect the cows' feet. Each cow has a long tail which it uses to chase flies away by swishing it.

Pak Mat's wife and their eldest son milk the cows every day. They collect the milk in pails. They pour the milk into the bottles and deliver them to their regular customers.

Karim tried his hand in milking one of the cows and he nearly got kicked! However, Karim has learnt one thing – being a farmer is not as easy as people think. It requires a lot of hard work.
